# LANDSCAPE

This system is a low-profile, slotted trench drain designed to effectively capture and contain surface water in outdoor environments.

## EASY-TO-INSTALL

Depending on your application, you can either cast Landscape U-drain in concrete or have it installed directly on packed gravel. Bolt-together sections allow for quick and seamless installation.

## LOW-MAINTENANCE

Cleaning your system is simple with the Cleaning Paddle. Insert the paddle through the slotted opening, twist 90° and drag it along the trench for cleanout.

## SLEEK LOOK

The Landscape system delivers a clean, refined finish to any application, with a discreet 1/2" slot opening that blends into your surface while remaining safe for foot traffic.

## LONG LASTING

Available in Galvanized or Stainless Steel to deliver exceptional durability. All U-drain systems come with a Lifetime Warranty.

## OPTIONS

- Catch Basins
- Silt Baskets
- Decorative Lids (Slotted, Plain or Checkerplate)
